World Premiere: Fashion Designer Mark Eisen’s Sculptures at Art Palm Beach

Modern Fine Art Presents Six Masterpieces from the Visionary Designer-Turned-Sculptor

PALM BEACH, Fla., January 16, 2025 – [Art Palm Beach](#) is excited to host the **World Premiere** of Mark Eisen’s groundbreaking sculptural collection from January 22–26, 2025, at the Palm Beach County Convention Center. [Presented by Modern Fine Art \(New York\)](#), this exhibition honors the legacy of the late designer and sculptor, showcasing six polished stainless-steel wall sculptures created during the last decade of his life.

Eisen first rose to prominence as a fashion icon in the 1980s and 1990s, with his sleek, minimalist designs featured in *Vogue*, *Harper’s Bazaar*, *Women’s Wear Daily*, and *The New York Times*. His luxury brand became synonymous with modern sophistication, a sensibility that also defines his fine art.

These reflective, geometric sculptures transform light, movement, and space into deeply engaging works that draw viewers into the experience. “These sculptures are unique because they combine materials and techniques in ways that bring them to life,” says Ray Waterhouse, founder of Modern Fine Art. “Their reflective surfaces interact with light and movement, making viewers feel like part of the exhibition. We believe Mark Eisen’s work will soon be recognized as some of the most important of the 21st century.”

Eisen’s sculptures are more than just objects, they are deeply emotional explorations of space, form, and perception. Their clean, modern shapes. circles, ovals, and rectangles create a sense environment. By transforming simplicity into something profoundly moving, Eisen bridges the worlds of art and design. “We are honored to introduce Mark Eisen’s vision and craftsmanship to the world.” said Art Palm Beach Director and Producer Cassandra Voyagis. “His sculptures transform minimalism into something deeply emotional and enduring – his work captures the power of simplicity and the complexity of human perception.”

Eisen’s debut is a defining moment for collectors and art lovers, cementing his legacy as both a design pioneer and visionary artist. Each sculpture comes in a series of three. The first edition is being offered at a significantly reduced price for collectors visiting Art Palm Beach. For more about Art Palm Beach and to purchase tickets go to ArtPalmBeach.com.
